Everybody is a genius, but if you judge a fish by the ability to climb a tree, it will live its whole life believing that it is stupid. – Albert Einstein

# TRADITIONAL SCHOOL

All I know is that  
you have to do well  
in academics

What makes a child gifted and talented may not always be good grades in school,  
but a different way of looking at the world and learning

Let me help you become  
the best at what you want  
to be and still be the best  
in academics

# WE RESPECT YOUR TALENTS!

THE PERFECT SCHOOL FOR STUDENTS IN EXTRA-CURRICULARS

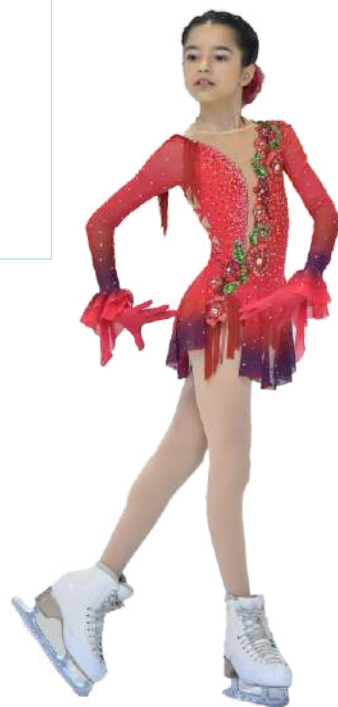

Our flexible school system is designed to give you the freedom to pursue your extra-curricular interests, whether it's music, dance, theater, debate etc. We work with you to create a customized schedule that allows you to excel in both academics and your chosen art form. Our teachers are experts in their respective fields and are committed to helping you achieve your full potential. International Schooling has students excelling as dancers, theatre artists, singers, musicians, painters etc. at state, national and international levels.

# EXCEL AS A STUDENT ATHLETE

At International Schooling we understand this struggle and that being a student-athlete can be a tough journey with long hours of training, constant travel, and competitions which leaves one exhausted both mentally and physically. On top of that, the traditional education system can be rigid, leaving little room for one to pursue her/his passion for sports.

# CHANGING LIVES FOR THE BEST

WE ARE DISCHARGING RESPONSIBILITIES  
TOWARDS CREATING A BETTER WORLD

Thousands of students across the globe miss out on quality education because of

1. FINANCIAL CONSTRAINTS
2. MEDICAL CONDITIONS
3. BEING SLOW/FAST LEARNERS

International Schooling's flagship program

**'CONNECT TO IMPACT™'**

is the answer to the various reasons and excuses that may hinder a child's academic journey.

Learners who have fallen out of the mainstream education system for whatever reason, physical, academic, mental, emotional, social or any other, are welcome to talk to us and we will do our best to support them. We welcome them with open arms and smiling faces. We also provide them with curated and customized learning solutions, hand-picked and designed for them. the purpose of a school's existence must be to spread more smiles to learners, and that is exactly what we are dedicated to achieve.

# RECOMMENDED BY PARENTS ACROSS 120+ COUNTRIES

Riyad Bahloul

5 Months ago

This is the first experience with International Schooling, and me and my 2 kids are happy with it. Both kids are 12 and 9 years old and have already experienced the online school model while the covid time. Both are very happy with the curriculum, teachers and the One-To-One teaching method. They are always focused and have more of the studying stuff. Another plus point the flexible lessons timing, where you can decide when you are ready to get the lessons and when not.

All in all, I recommend highly the International Schooling for who is looking for great school experience, flexibility, and finally moderate costs (much better than regular international schools).

Since the time of online education, I realized that online education is the best for my daughters. I was in contact with the international schooling team, after a year of research and thinking I made my decision and it was a new year full of enthusiasm for my two daughters. From the first day I was surprised that they loved the school so much that they say we don't want to go back to the old school. Their teacher is very nice and the most important thing about this school is that the student does not feel pressure and does not care about grades. Just take care of getting the right information and enjoy learning in innovative and unique ways. I have Two daughters the eldest is in grade 5.. the youngest is in grade 3, and we will continue in this school for sure, as it is the most suitable option for them. Thank you international schooling for changing my daughters life for the best.

5 Months ago

International Schooling knows the value of Education. Once you're on board you will see the difference from another online school (I've been to online schooling local base, and observed some online schools as well). International Schooling has a very thorough, and user-friendly system. As a parent/s you will feel that your child/children are not even studying online but in a real class in school (though we know it is virtually). They have well-versed teachers who teach equally, respect their students, and give 101% support to their student's progress in their studies.

Online learning is the future of education and International Schooling is leading it. With Discovery Education, COGNIA, United Nations, and College Board supporting them, you know that your child is on the right path to success.

Thank you International Schooling hope that this can help other parent/s to experience what we are experiencing. All The Best!

Chidinma Agu

3 Months ago

International schooling has been a blessing to my family. My son in grade 6 and daughter in grade 4 are excited to attend an American school and we the parents, are excited too because it's affordable.

I recommend this school to everyone, precisely parents in the Middle East, where American school is super expensive.

The lectures are great and the kids are given the best.

## SCHOOL MANAGEMENT SYSTEM (SMS)

School Management System (SMS) is software to manage all day to day activities where the student has access to features such as his reports, progress, notification, tasks, fee schedule, etc.

International Schooling provides a remarkable wealth of online school resources that may be accessed conveniently from a student's personal computer. International Schooling's virtual resources are intended to provide students in middle school and high school access to the comprehensive curriculum designed to address their individual educational needs.

We offer flexibility to students so that they can learn at their own pace with the help of experienced and committed educators and content on all subject areas.

## LEARNING MANAGEMENT SYSTEM (LMS)

Learning Management System is a software application or Web-based technology used to plan, implement, and assess a specific learning process. It is meant for the administration, documentation, tracking, reporting and delivery of educational courses.

Our LMS includes illustrations, animations, photos, text, audio and video which are essential elements in a virtual high school.
